FIG. 7

FIG. 7 is a perspective view of a rectangular frame assembly 10. The assembly includes a main frame 80 with a central opening 87. The frame is formed by a top rail 16, a bottom rail 14, and side rails 81 and 82. The top rail 16 has a flange 88 and a mounting bracket 94. The bottom rail 14 has a flange 84 and a mounting bracket 98. The side rails 81 and 82 have flanges 86 and 87 respectively. The frame is shown in a perspective view, with a dashed line indicating a cross-section B-B. The frame is labeled with various reference numerals: 10, 16, 80, 82, 87, 88, 81, 84, 14, 76, 78, 94, 96, 98, 100, 102, 104, and 90.

A schematic diagram of a bent pipe assembly. The assembly consists of a main horizontal section and a vertical section. The horizontal section is composed of three segments: a left segment labeled 13, a middle segment labeled 15, and a right segment labeled 13. The vertical section is labeled 12 and is connected to the right end of the horizontal section. The vertical section has a curved end labeled 17a, and the segment just before the curve is labeled 17.

FIG. 15A

FIG. 15A is a top-down view of a device 300. The device features a rectangular frame 17. Inside the frame, there is a central square region 8. A large rectangular area 15 is located within the frame, surrounding the central region 8. A component 74 is positioned at the top center of the frame. A cable 12 is connected to the right side of the frame, passing through a U-shaped component 396. The cable 12 is secured by a component 392. The device is labeled with various reference numerals: 302, 303, 392, 74, 396, 15, 8, 12, 64, and 17. A coordinate system is shown with a horizontal arrow 'd' pointing right and a vertical arrow 'c' pointing up.
